

Members with dual residences (a summer home and winter home) may be set up on our alternate address system so they receive the Bridge Bulletin throughout the year. This does require you to be at the addresses provided during the same months each year. We will have both of addresses on our records and have them automatically change at the proper time.

You also have the option to select your unit affiliation to remain the same all year or have it change when your address changes.

To utilize this offer, you will need to provide us with both of addresses/phone numbers as well as the time frame for each address. Send this information to AddressChange@acbl.org.
