Jared Boulds will give a lesson in Swiss Team tactic at 11 am

Flight eligibility will be established by ACBL's September masterpoint cycle. This information will be produced on August 6, 2015 in Horn Lake, MS. Masterpoints won after this cycle will not impact flight eligibility for these events.

So the masterpoints/rank that determine strata/flight eligibility is the MP/rank you had at the beginning of September last year, not your current MP/rank

- a. All teams are eligible for qualification to the Open Championship Flight.
- b. All teams are eligible for Flight B qualification with the exception of a team with a member over 2500 masterpoints.
- c. All teams are eligible for Flight C qualification with the exception of a team with a member over 500 masterpoints or one who has achieved the rank of Life Master.

Any team that qualifies on the club may play in the district finals.
Teams can be reformed as long as all the members have qualified

District 17 finals are at the Denver Regional in May, 2016, and the winning team will be invited to compete in the Nationals in Washington DC in July
